

Hospital Workgroup Pre-Meeting Assignments and Suggestions for Preparation

Thank you in advance for participating in this assignment. Its intention is to focus your preparation for the December Hospital Workgroup in-person meeting by designating a hospital measurement program for each workgroup member to review. Please see table 1 (below) for your assignment. Discussion for each program will begin with 2-3 minute summaries from those who are assigned to that program. After summaries, all workgroup members will have the opportunity to provide input on each program under review at the meeting. Accordingly, please plan to review all materials in advance of the meeting, but place particular emphasis on your assigned program. Your preparation and initial insights will enrich the workgroup’s deliberations and provide a helpful starting point.

Consent Calendar	Measure	Lead Discussant
ESRD QIP— Consent Calendar 1	Hemodialysis Vascular Access: Long-term Catheter Rate	Allen Nissenson, Kidney Care Partners
	Hemodialysis Vascular Access: Standardized Fistula Rate Standardized Transfusion Ratio for Dialysis Facilities	Elizabeth Evans, Individual Subject Matter Expert
